			evidence with remediation tracking where exceptions were found.			
ISO-003	ISO 27001 Control 003	Ensure ISO 27001 control coverage for ASSET/CLASSIFICATION/OWNERSHIP with documented ownership and operating cadence.	Policy/procedure artifact demonstrating ASSET/CLASSIFICATION/OWNERSHIP governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for ASSET/CLASSIFICATION/OWNERSHIP.; Recent review evidence with remediation tracking where exceptions were found.	GAP	3	0
ISO-004	ISO 27001 Control 004	Ensure ISO 27001 control coverage for IDENTITY/ACCESS/MFA with documented ownership and operating cadence.	Policy/procedure artifact demonstrating IDENTITY/ACCESS/MFA governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for IDENTITY/ACCESS/MFA.; Recent review evidence with remediation tracking where exceptions were found.	GAP	4	0
ISO-005	ISO 27001 Control 005	Ensure ISO 27001 control coverage for CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT with documented ownership and operating cadence.	Policy/procedure artifact demonstrating CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT.; Recent review evidence with remediation tracking where exceptions were found.	GAP	5	0
ISO-006	ISO 27001 Control 006	Ensure ISO 27001 control coverage for LOGGING/MONITORING/RETENTION with documented ownership and operating cadence.	Policy/procedure artifact demonstrating LOGGING/MONITORING/RETENTION governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for LOGGING/MONITORING/RETENTION.; Recent review evidence with remediation tracking where exceptions were found.	GAP	1	0
ISO-007	ISO 27001 Control 007	Ensure ISO 27001 control coverage for VULNERABILITY/OPERATIONS/HARDENING with documented ownership and operating cadence.	Policy/procedure artifact demonstrating VULNERABILITY/OPERATIONS/HARDENING governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for VULNERABILITY/OPERATIONS/HARDENING.; Recent review evidence with remediation tracking where exceptions were found.	GAP	2	0
ISO-008	ISO 27001 Control 008	Ensure ISO 27001 control coverage for INCIDENT/RESPONSE/COMMUNICATION with documented ownership and operating cadence.	Policy/procedure artifact demonstrating INCIDENT/RESPONSE/COMMUNICATION governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for INCIDENT/RESPONSE/COMMUNICATION.; Recent review evidence with remediation tracking where exceptions were found.	GAP	3	0
ISO-009	ISO 27001 Control 009	Ensure ISO 27001 control coverage for CONTINUITY/RECOVERY/CADENCE with documented ownership and operating cadence.	Policy/procedure artifact demonstrating CONTINUITY/RECOVERY/CADENCE governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for CONTINUITY/RECOVERY/CADENCE.; Recent review evidence with remediation tracking where exceptions were found.	GAP	4	0
ISO-010	ISO 27001 Control 010	Ensure ISO 27001 control coverage for AUDIT/ASSURANCE/METRICS with documented ownership and operating cadence.	Policy/procedure artifact demonstrating AUDIT/ASSURANCE/METRICS governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for AUDIT/ASSURANCE/METRICS.; Recent review evidence with remediation tracking where exceptions were found.	GAP	5	0
ISO-011	ISO 27001 Control 011	Ensure ISO 27001 control coverage for SUPPLIER/THIRD_PARTY/CONTRACT with documented ownership and operating cadence.	Policy/procedure artifact demonstrating SUPPLIER/THIRD_PARTY/CONTRACT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for SUPPLIER/THIRD_PARTY/CONTRACT.; Recent review evidence with remediation tracking where exceptions were found.	GAP	1	0

ISO-088	ISO 27001 Control 088	GAP	3	0	2	Policy/procedure artifact demonstrating AUDIT/ASSURANCE/METRICS governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for AUDIT/ASSURANCE/METRICS.; Recent review evidence with remediation tracking where exceptions were found.
ISO-089	ISO 27001 Control 089	GAP	4	0	2	Policy/procedure artifact demonstrating SUPPLIER/THIRD_PARTY/CONTRACT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for SUPPLIER/THIRD_PARTY/CONTRACT.; Recent review evidence with remediation tracking where exceptions were found.
ISO-090	ISO 27001 Control 090	GAP	5	0	2	Policy/procedure artifact demonstrating AWARENESS/TRAINING/PEOPLE governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for AWARENESS/TRAINING/PEOPLE.; Recent review evidence with remediation tracking where exceptions were found.
ISO-091	ISO 27001 Control 091	GAP	1	0	2	Policy/procedure artifact demonstrating PRIVACY/LEGAL/COMPLIANCE governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for PRIVACY/LEGAL/COMPLIANCE.; Recent review evidence with remediation tracking where exceptions were found.
ISO-092	ISO 27001 Control 092	GAP	2	0	3	Policy/procedure artifact demonstrating POLICY/GOVERNANCE/REVIEW governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for POLICY/GOVERNANCE/REVIEW.; Recent review evidence with remediation tracking where exceptions were found.
ISO-093	ISO 27001 Control 093	GAP	3	0	3	Policy/procedure artifact demonstrating RISK/REGISTER/TREATMENT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for RISK/REGISTER/TREATMENT.; Recent review evidence with remediation tracking where exceptions were found.

Evidence Appendix

ISO-001 - ISO 27001 Control 001

GAP | severity 1 | evidence_count 0

Ensure ISO 27001 control coverage for POLICY/GOVERNANCE/REVIEW with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating POLICY/GOVERNANCE/REVIEW governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for POLICY/GOVERNANCE/REVIEW.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-001 - policy governance review controls evidence owner review register policy log

tags: policy, governance, review | hits: 0

No direct evidence hits for this query.

ISO-Q-002 - risk register treatment controls evidence owner review register policy log

tags: risk, register, treatment | hits: 0

No direct evidence hits for this query.

ISO-Q-014 - policy governance review controls evidence owner review register policy log

tags: policy, governance, review | hits: 0

No direct evidence hits for this query.

ISO-Q-015 - risk register treatment controls evidence owner review register policy log

tags: risk, register, treatment | hits: 0

No direct evidence hits for this query.

ISO-Q-027 - policy governance review controls evidence owner review register policy log

tags: policy, governance, review | hits: 0

No direct evidence hits for this query.

ISO-002 - ISO 27001 Control 002

GAP | severity 2 | evidence_count 0

Ensure ISO 27001 control coverage for RISK/REGISTER/TREATMENT with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating RISK/REGISTER/TREATMENT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for RISK/REGISTER/TREATMENT.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-002 - risk register treatment controls evidence owner review register policy log

tags: risk, register, treatment | hits: 0

No direct evidence hits for this query.

ISO-Q-003 - asset classification ownership controls evidence owner review register policy log

tags: asset, classification, ownership | hits: 0

No direct evidence hits for this query.

ISO-Q-015 - risk register treatment controls evidence owner review register policy log

tags: risk, register, treatment | hits: 0

No direct evidence hits for this query.

ISO-Q-016 - asset classification ownership controls evidence owner review register policy log

tags: asset, classification, ownership | hits: 0

No direct evidence hits for this query.

ISO-Q-028 - risk register treatment controls evidence owner review register policy log

tags: risk, register, treatment | hits: 0

No direct evidence hits for this query.

ISO-003 - ISO 27001 Control 003

GAP | severity 3 | evidence_count 0

Ensure ISO 27001 control coverage for ASSET/CLASSIFICATION/OWNERSHIP with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating ASSET/CLASSIFICATION/OWNERSHIP governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for ASSET/CLASSIFICATION/OWNERSHIP.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-003 - asset classification ownership controls-003 evidence owner review register policy log

tags: asset, classification, ownership | hits: 0

No direct evidence hits for this query.

ISO-Q-004 - identity access mfa controls evidence owner review register policy log

tags: identity, access, mfa | hits: 0

No direct evidence hits for this query.

ISO-Q-016 - asset classification ownership controls evidence owner review register policy log

tags: asset, classification, ownership | hits: 0

No direct evidence hits for this query.

ISO-Q-017 - identity access mfa controls evidence owner review register policy log

tags: identity, access, mfa | hits: 0

No direct evidence hits for this query.

ISO-Q-029 - asset classification ownership controls evidence owner review register policy log

tags: asset, classification, ownership | hits: 0

No direct evidence hits for this query.

ISO-004 - ISO 27001 Control 004

GAP | severity 4 | evidence_count 0

Ensure ISO 27001 control coverage for IDENTITY/ACCESS/MFA with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating IDENTITY/ACCESS/MFA governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for IDENTITY/ACCESS/MFA.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-004 - identity access mfa controls evidence owner review register policy log

tags: identity, access, mfa | hits: 0

No direct evidence hits for this query.

ISO-Q-005 - cryptography encryption key_management controls evidence owner review register policy log

tags: cryptography, encryption, key_management | hits: 0

No direct evidence hits for this query.

ISO-Q-017 - identity access mfa controls evidence owner review register policy log

tags: identity, access, mfa | hits: 0

No direct evidence hits for this query.

ISO-Q-018 - cryptography encryption key_management controls evidence owner review register policy log

tags: cryptography, encryption, key_management | hits: 0

No direct evidence hits for this query.

ISO-Q-030 - identity access mfa controls evidence owner review register policy log

tags: identity, access, mfa | hits: 0

No direct evidence hits for this query.

ISO-005 - ISO 27001 Control 005

GAP | severity 5 | evidence_count 0

Ensure ISO 27001 control coverage for CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for CRYPTOGRAPHY/ENCRYPTION/KEY_MANAGEMENT.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-005 - cryptography encryption key_management controls evidence owner review register policy log

tags: cryptography, encryption, key_management | hits: 0

No direct evidence hits for this query.

ISO-Q-006 - logging monitoring retention controls evidence owner review register policy log

tags: logging, monitoring, retention | hits: 0

No direct evidence hits for this query.

ISO-Q-018 - cryptography encryption key_management controls evidence owner review register policy log

tags: cryptography, encryption, key_management | hits: 0

No direct evidence hits for this query.

ISO-Q-019 - logging monitoring retention controls evidence owner review register policy log

tags: logging, monitoring, retention | hits: 0

No direct evidence hits for this query.

ISO-Q-031 - cryptography encryption key_management controls evidence owner review register policy log

tags: cryptography, encryption, key_management | hits: 0

No direct evidence hits for this query.

ISO-006 - ISO 27001 Control 006

GAP | severity 1 | evidence_count 0

Ensure ISO 27001 control coverage for LOGGING/MONITORING/RETENTION with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating LOGGING/MONITORING/RETENTION governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for LOGGING/MONITORING/RETENTION.; Recent

review evidence with remediation tracking where exceptions were found.

ISO-Q-006 - logging monitoring retention controls evidence owner review register policy log

tags: logging, monitoring, retention | hits: 0

No direct evidence hits for this query.

ISO-Q-007 - vulnerability operations hardening controls evidence owner review register policy log

tags: vulnerability, operations, hardening | hits: 0

No direct evidence hits for this query.

ISO-Q-019 - logging monitoring retention controls evidence owner review register policy log

tags: logging, monitoring, retention | hits: 0

No direct evidence hits for this query.

ISO-Q-020 - vulnerability operations hardening controls evidence owner review register policy log

tags: vulnerability, operations, hardening | hits: 0

No direct evidence hits for this query.

ISO-Q-032 - logging monitoring retention controls evidence owner review register policy log

tags: logging, monitoring, retention | hits: 0

No direct evidence hits for this query.

ISO-007 - ISO 27001 Control 007

GAP | severity 2 | evidence_count 0

Ensure ISO 27001 control coverage for VULNERABILITY/OPERATIONS/HARDENING with documented ownership and operating cadence.

Expected evidence: Policy/procedure artifact demonstrating VULNERABILITY/OPERATIONS/HARDENING governance and ownership.; Operational evidence (logs, reports, tickets, or records) proving control execution for VULNERABILITY/OPERATIONS/HARDENING.; Recent review evidence with remediation tracking where exceptions were found.

ISO-Q-007 - vulnerability operations hardening controls evidence owner review register policy log

tags: vulnerability, operations, hardening | hits: 0

No direct evidence hits for this query.

ISO-Q-008 - incident response communication controls evidence owner review register policy log

tags: incident, response, communication | hits: 0

No direct evidence hits for this query.

ISO-Q-020 - vulnerability operations hardening controls evidence owner review register policy log

tags: vulnerability, operations, hardening | hits: 0

No direct evidence hits for this query.
